Objectives of PHC Clinical Placements

- Increase students’ clinical exposure and experience with relevant health settings
- Increase students’ confidence and competence to provide primary clinical care
- Improve clinical teaching practices of nurses and midwives to improve learning
- Improve job satisfaction of health center staff and contribute to improved retention
- Aid recruitment and retention of student graduates in rural areas

PHC Clinical Placements Implementation Process

1. Development of an annual Clinical Placement Implementation Timeline
2. Jhpiego meetings with schools
3. Site assessments for feasibility of clinical placement (Schools and Jhpiego using an accredited site assessment tool)
4. Preceptor Trainings
5. Site Strengthening
6. Clinical sites and school meetings (Pre or Post-Clinical Placement Meetings)
7. Placement Evaluation
8. Plan for Future Placement
